

**ON GUARD™**  
INDUSTRIAL SAFETY EYEWEAR *Innovation, fashion and value*

**OnGuard™ safety eyewear accessories . . .  
the complete safety eyewear solution!**

**Best Sellers!**

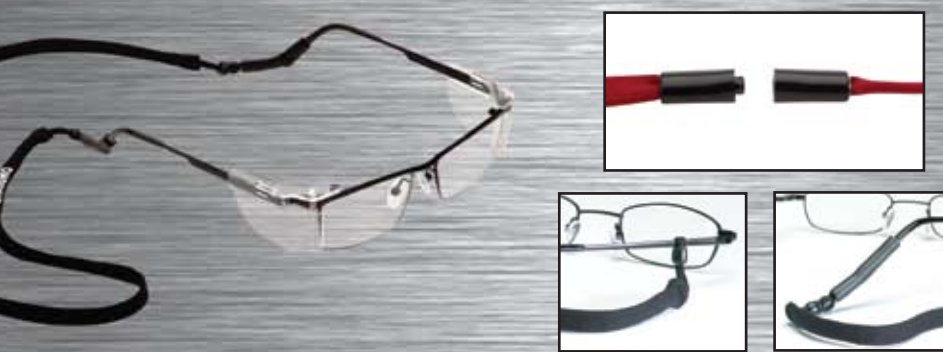

**Eyewear Cases**

Safety cases designed to hold the largest safety frames . . . with side shields!

**Plano eye protection with interchangeable lenses.**

**Eyewear retainers with a safety release and a multi-functional end to fit any safety frame temple!**

All OnGuard cords feature a break-away safety connector

Dualies® patented multi-functional temple attachment

**Lens Care**

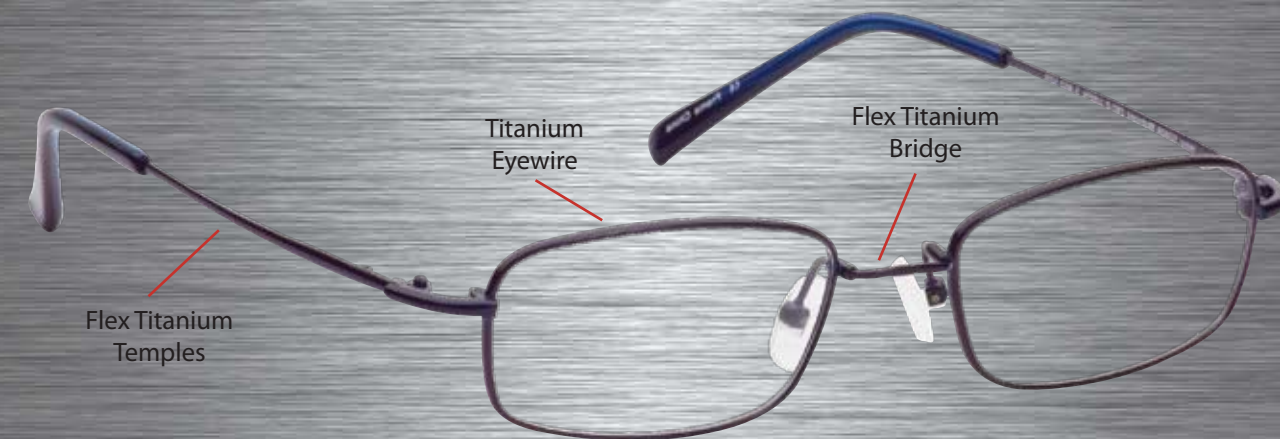

Lens cleaner spray with disposable dry wipes

Pre-moistened towelettes dispensing pack

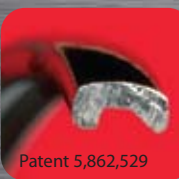

**The complete safety eyewear solution from one trusted supplier - Hilco® and the OnGuard™ safety program.**

Welcome to the 2009 OnGuard safety eyewear program, the optimum in performance and value. Only OnGuard offers more than 150 styles in 7 materials, including an industry first – flex titanium in our exclusive A-2® collection.

**Industry First . . .  
Flex Titanium  
Safety Eyewear**

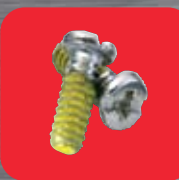

A-2® frames are constructed with the patented SprinGuard™ lens retention system. SprinGuard secures the lenses efficiently with less frame mass. A-2 eyewear is thinner and lighter yet, incredibly, it exceeds the ANSI Z87.1 2003 impact standard by a wide margin.

Patented SprinGuard™ flat posterior lens lip design provides superior lens retention. A-2 requires that the lens be edged with a SprinGuard bevel for the ultimate in safety protection.

EZ-shield™ rivetless side shields provide the ultimate in easy permanent attachment.

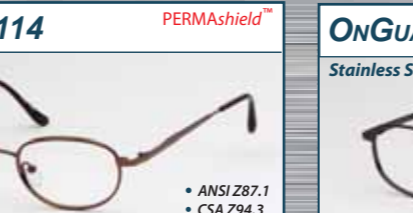

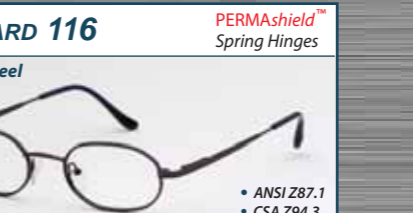

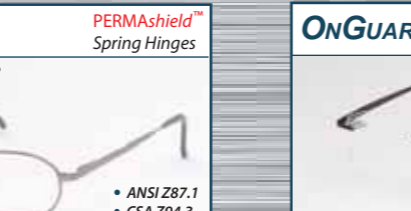

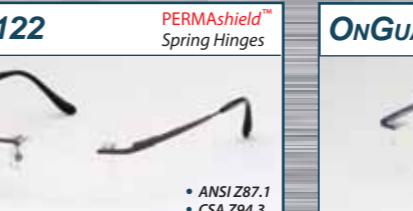

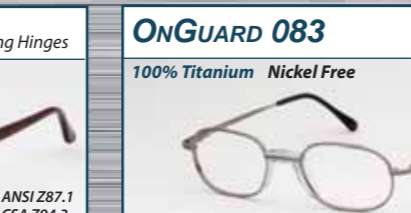

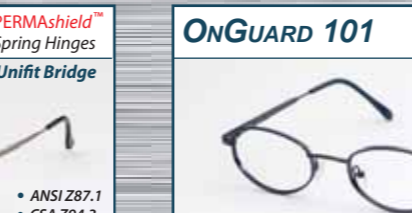

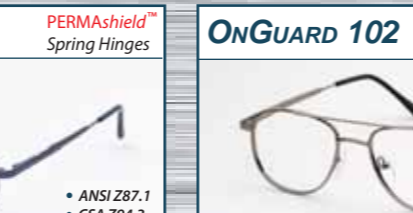

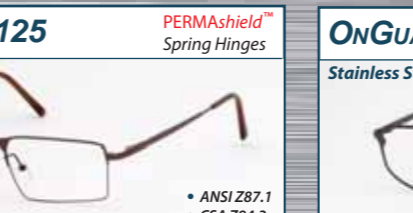

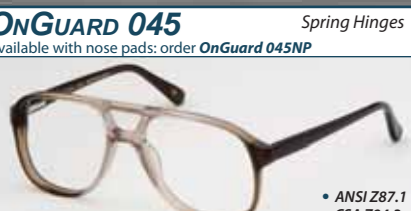

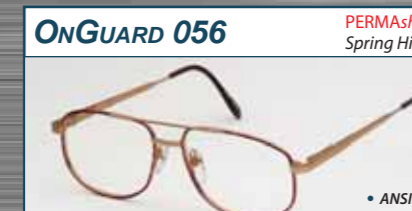

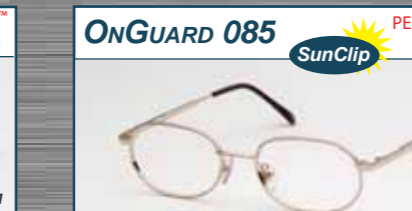

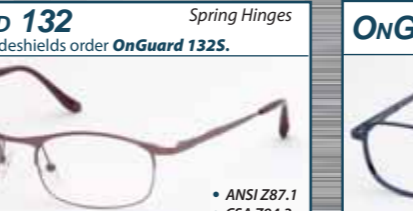

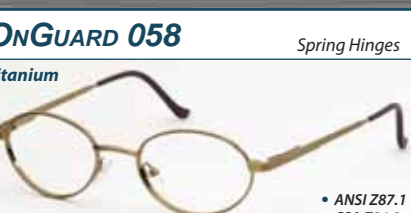

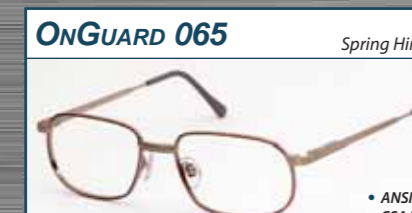

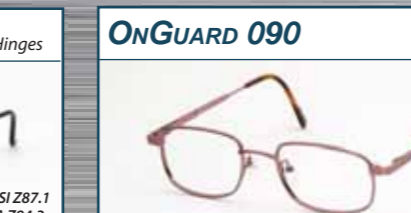

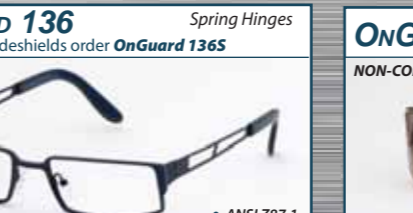

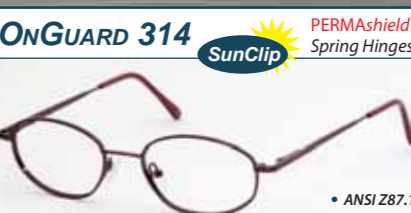

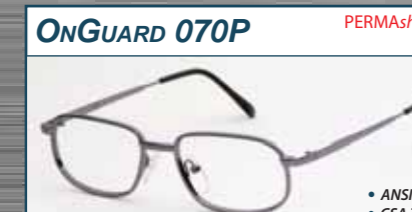

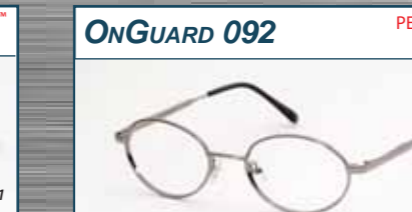

A safety frame is only as durable as the screws used in closure barrels and hinges. SAFE-LOK™ locking screws stay in and stay tight for *lasting* protection.
